

WHEN IT COMES TO VIDEO SAFETY... MAKE SURE YOU'RE NOT THROWING AWAY YOUR MONEY

The Waste & Recycling industry is one of the most dangerous industries in the U.S. Is your current safety technology keeping pace with your safety needs?

The innovative SmartDrive® video safety solution meets the unique needs of waste & recycling fleets. The comprehensive program reduces costs by improving safety and reducing collision frequency; keeps your drivers safe through personalized coaching tools based upon their real-world driving performance; exonerates your drivers from false accusations; and provides consistent performance measurement to identify great drivers and those that need constructive coaching.

TOP 5 VIDEO-BASED SAFETY MUST-HAVES:

Integration with backing cameras to highlight your highest risk incidents

Access to video within minutes of an incident – when you need it most

Ability to capture hard to get low-impact collisions with up to 100 hours of on-demand video

Integration with other vehicle systems including active safety systems

Delivers the insight you need to uncover new revenue opportunities

Not all video-based safety programs are created equal. These 12 criteria should be considered as part of your selection process. They can make the difference between a program you quickly outgrow and one that keeps pace with your business.

12 POINT BUYING GUIDE TO VIDEO-BASED SAFETY SYSTEMS

	SMARTDRIVE	OTHER SYSTEM	OTHER SYSTEM
1 Combines video with integrated driving improvement program	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
2 Triggers video events from multiple real-time data sources: accelerometers, vehicle data, active safety systems, and others	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
3 Sampling volume is statistically relevant and measures all drivers	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
4 Delivers a consistent number of reviewed videos each month	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
5 Automatically offloads video within minutes of incident	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
6 Flexible program that is configurable to your fleet policies & priorities	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
7 Open platform that easily connects to other systems	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
8 Includes variety of recording durations – including continuous recording	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
9 Camera options – up to four cameras	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
10 Directly integrates with back-office operational systems	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
11 Analytics, Visualization and multiple data sources	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
12 Ongoing product investment and active technology roadmap	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
